

ORGANIC MEDJOOL DATE SYRUP

Product Specifications

Material Description: Produced from organic Medjool dates that are cleaned and pitted. The macerated pieces are added to heated water and concentrated into a thick syrup. The syrup possesses a sweet odor and flavor, free from musty, moldy, earthy, and other undesirable off-flavors. No anti-oxidants, additives, sulfating agents, or artificial flavors are used.

Ingredient: Medjool date

Specifications and Analyses:

Physical:

Sensory Evaluation

Specification:

Appearance, taste and odor meet material description requirements

Extraneous Matter, Macro
Pits, by inspection

Target Zero

Viscosity

900 - 1,200

Chemical:

Soluble Solids (Brix)
TA
PH

Specification:

72 Degree +/- 2 degree
0.70g/100 mls
4.57

Microbiological:

APC
Yeast
Mold

Specification:

50,000/g maximum
5000/g maximum
5000/g maximum

Shipping, Storage and Shelf Life:

Shipping: 55-gallon drums containing 620 lbs. net wt each at 4 drums per pallet
5-gallon pails containing 56 lbs. net wt each at 48 pails per pallet

Storage: Recommend refrigerated storage (36 - 40 ° F)

Shelf Life: Based on recommended storage method:
At 36°- 40 °F: 18 months from date of packing

Note: The product does deteriorate at the end of its shelf life
