

**Antibiotics, Hormones, & Pesticides/Herbicides in PeptPure**

In consideration of the raw materials, processing methods, testing and documentation that we have reviewed, the use of antibiotics, hormones, pesticides or herbicides have not been detected. As a result, we would not expect to find any of these substances present in our finished, processed product.

**Antibiotics & Hormones in PeptPure**

Although the majority of the animals raised for consumption are given antibiotics and hormones, studies indicate that they are not retained in the hides or skins of the animals. Furthermore, Brazil's Ministry of Agriculture ( MAPA) regulates antibiotic use in the cattle production industry to abide by food safety regulations as well as animal welfare. PeptPure is antibiotic-free and hormone-free

**Pesticides/Herbicides in PeptPure**

PeptPure products are pesticide-free and herbicide-free
