

# Gelatin and Collagen Hydrolysate Grass Fed Statement

The collagen hydrolysate and gelatin derived from grass-fed bovine hides are produced exclusively from non-BSE affected bovine collagen.

All of the materials from which the collagen is extracted are from animals that have received documented veterinary inspections and were deemed healthy and fit for human consumption.

The collagen hydrolysate and gelatin consisting in the final product have been subject of F.D.A and U.S.D.A inspection were deemed healthy and fit for human consumption.
